

Splitsen met cadeautjes

cadeautjes verdelen

A central box contains a division problem:
$$\begin{array}{r|l} 9 & \\ \hline 3 & ? \end{array}$$
 Two green houses with yellow roofs are shown. The left house contains 3 red gifts, and the right house contains 6 green gifts. A girl in a red hat and coat stands between the houses, holding a green gift. Green arrows point from the central box to each house.

uitleg

Gebruik de splitsmatten om te oefenen met de splitsingen tot 10. Er zijn drie verschillende matten:

- Eén waarop je zowel de splitskaartjes als de kaartjes met de cadeautjes gebruikt
- Eén waarop je in het rondje het splitsgetal opschrijft en de kaartjes met de cadeautjes gebruikt of concreet materiaal
- Eén waarop je een splitkaartje op het vierkant legt en de splitsing met concreet materiaal maakt.

De gemaakte splitsingen kunnen de leerlingen noteren op de bijgevoegde werkbladen.
