

Cijferzoeker Kerst (tot 20)

Gebruik deze kaarten als aanvulling voor in de rekenhoek tijdens het thema 'Kerst' en laat de kinderen speuren naar de getallen in de kerstboom.

Het document is er zowel in kleur als zwart-wit

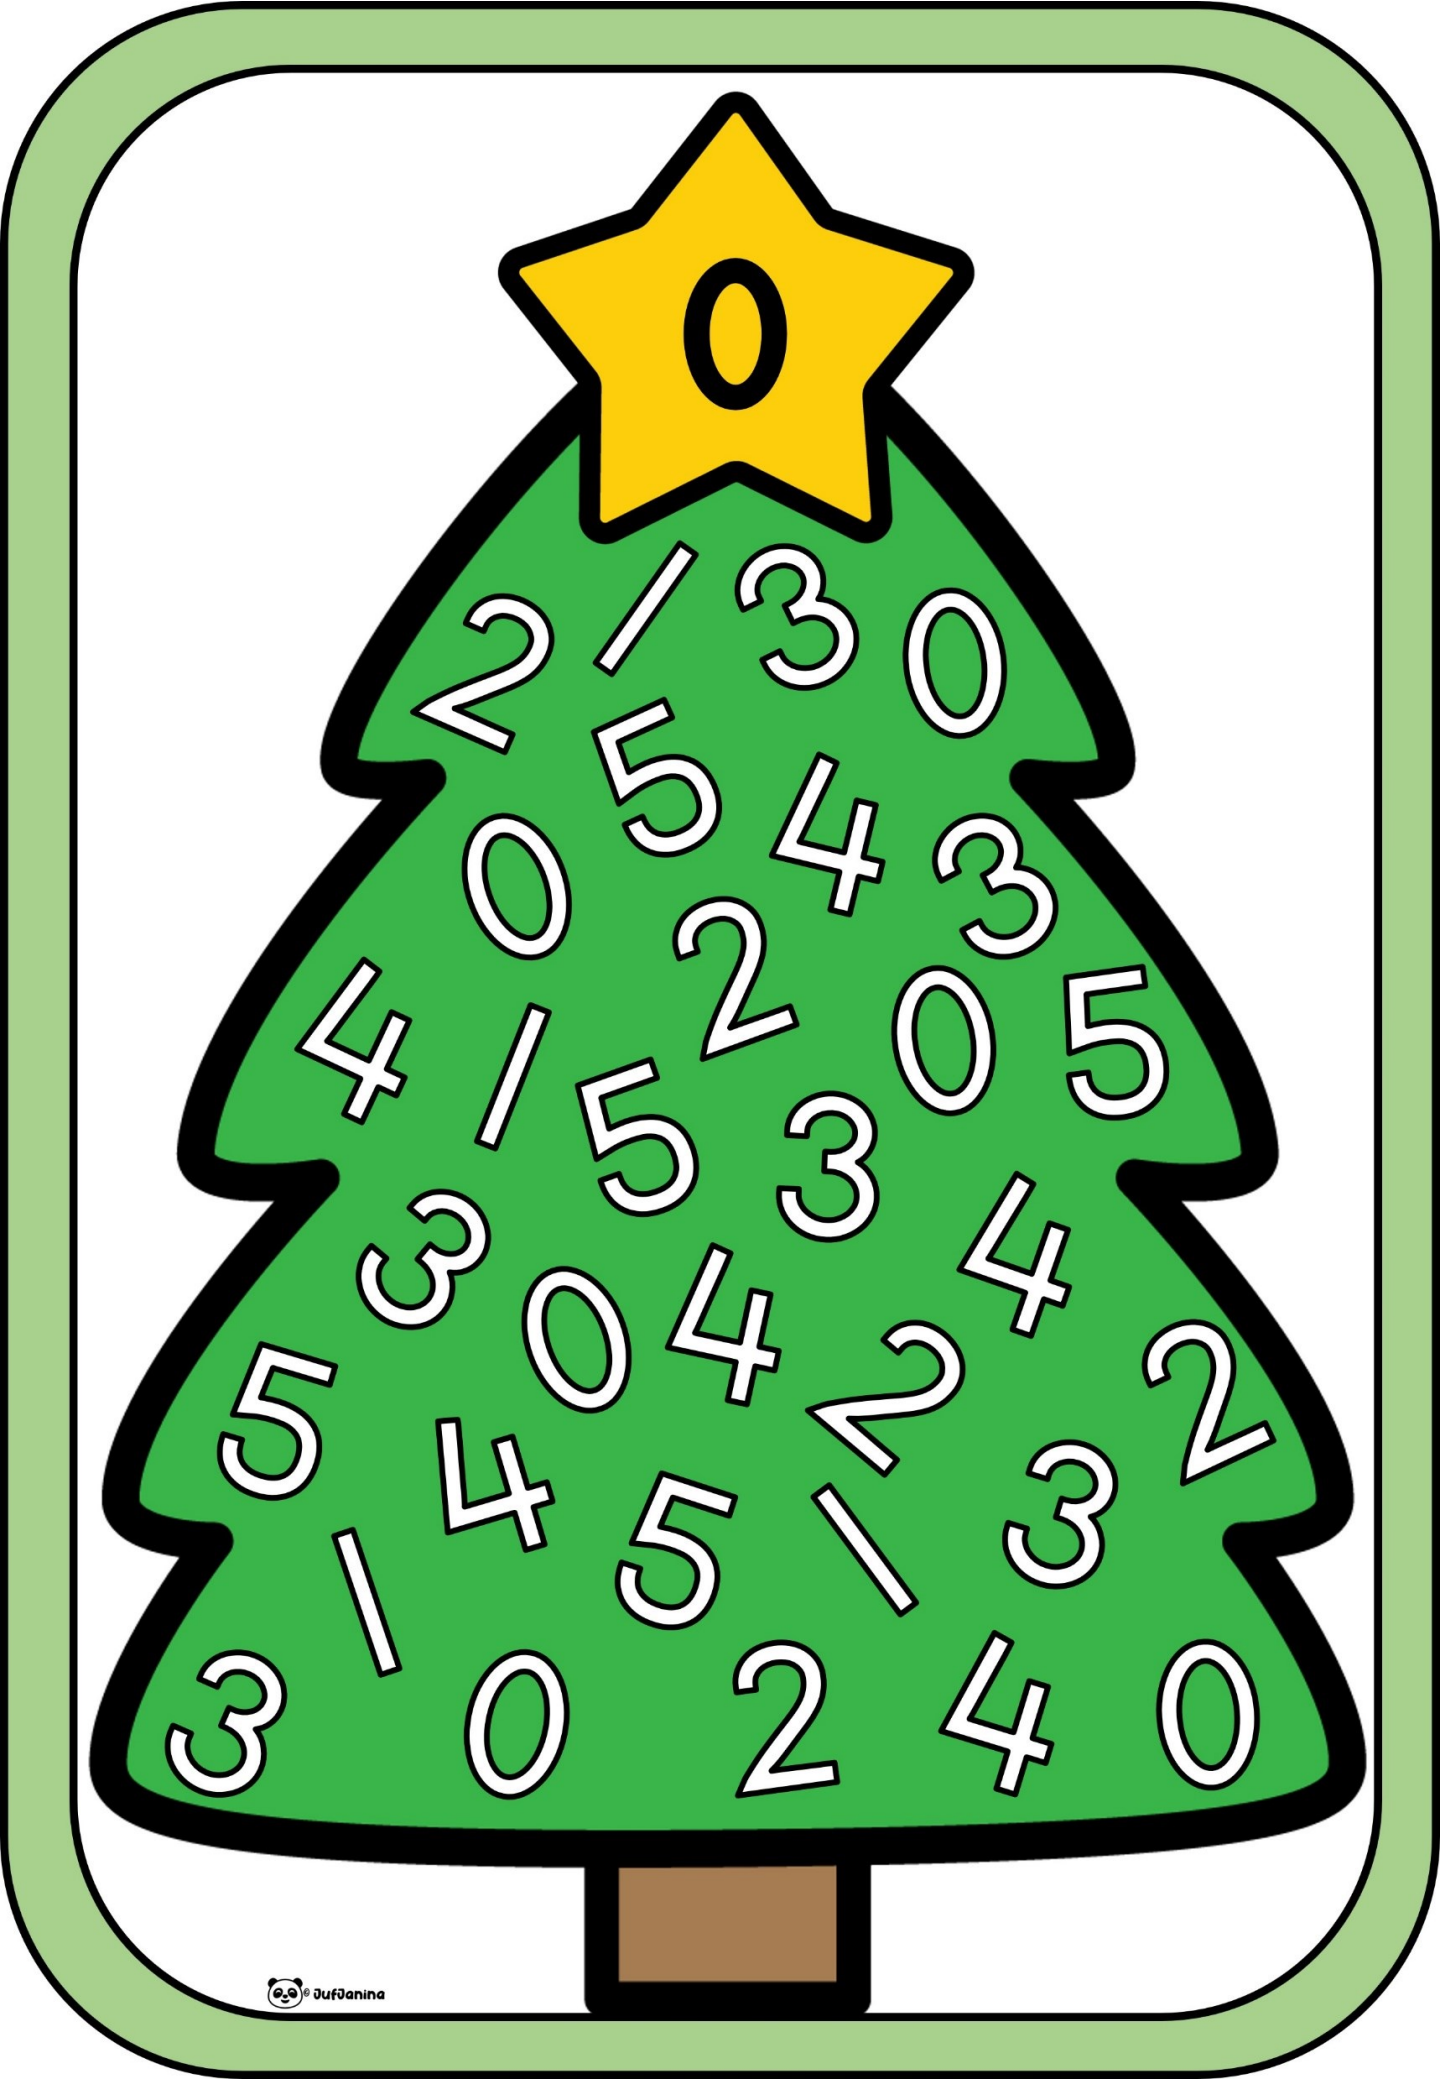

De kaarten vullen een heel A4-blad. Mocht je het kleiner willen hebben, dan adviseer ik je om de bladen per 2 op één A4 af te drukken in de instellingen.
