

Bewegend leren Pinguïn voeren

(getallen tot 15)

Leg de pinguïns verspreid door de zaal en laat de kinderen over ijsschotsen (matten of hoepels) springen en de vis bij de juiste pinguïn neer te leggen. Er zijn vissen met cijfersymbool, vingersymbool, 5-structuur en dobbelsteenstructuur.

Dit bestand kun je ook inzetten tijdens een grote kring met de coöperatieve werkvorm 'zoek je maatje' waarbij één van de kinderen de pinguïn heeft en op zoek moet naar het visje wat hij kan eten (hetzelfde getal/aantal op de vis)
